Nakeeta Beach

Mukilteo

Type: Neighborhood
Acreage: 27
Acquisition Date: 1958
Funding Source: Treasurer’s Deed

Description: Tidelands facing west on Puget Sound, west of Mukilteo.

History: Treasurer’s Deed assigned to Parks in 1958.

Features: Undeveloped

Future Plans: None
Peter Norgaard
Northeast of Stanwood

Type: Open Space/Preserve
Acreage: 79
Acquisition Date: 1972
Funding Source: Donation

Description: An undeveloped open space holding with a large wetland. The property includes a second growth stand of mixed deciduous and evergreen trees.

History: The park was donated to Snohomish County in 1972 for future park purposes.

Features: Currently undeveloped

Future Plans:
North County Wildlife Area
Wade Rd. and 67th Ave NE, Arlington

Type: Open Space/Preserve
Acreage: 23
Acquisition Date: 1997
Funding Source: Conservation Futures

Description: Located adjacent to the Centennial Trail, north of Wade Road, and east of 67th Ave. NE. This property is wooded and contains a tributary stream to Quilceda Creek.

History: Acquired in 1997 as an addition to the Centennial Trail ownership.

Features: Currently undeveloped

Future Plans: Site may be developed with amenities to support the Centennial Trail and/or as a stand alone facility.
Description: North Creek Regional Park is located within, and south of, the City of Mill Creek. The property is predominantly wetland and provides habitat for a wide variety of wildlife. The site is a favorite with birdwatchers and others who enjoy the cross-site boardwalk system.

History: The property was originally owned by the Bailey family, historic homesteaders. The Snohomish County Parks Department and Surface Water Management Division targeted the site as a regional stormwater detention facility. The site was later developed with an interpretive boardwalk, and later playground at the trailhead.

Features: Interpretive boardwalk and signage, picnicking, viewpoint, shelters, playground, parking and sanitary

Future Plans:
North Creek Greenway
14th Dr. SE, Bothell

Type: Open Space/Preserve
Acreage: 13
Acquisition Date: 1999-2002
Funding Source: Conservation Futures and others

Description: The North Creek Greenway consists of a mix of open space ownership and conservation easements acquired to preserve habitat in the North Creek area.

History: Through a partnership with the Adopt-A-Stream Foundation, Parks established a program to provide landowners incentives to preserve the North Creek stream corridor in a natural condition. In addition to the fee simple acquisition shown here, a number of conservation easements were purchased from property owners that had North Creek, and tributary, riparian ownership. By preserving portions of the North Creek stream corridor in natural condition, stream flows will be moderated and salmon runs that use the watershed will have increased survival opportunities. Conservation easements established through this program generally remain in the ownership of private landowners and are not open to the public.

Features: Undeveloped
Future Plans: None
Olympus Meadows
26th Dr. SE and 176th St. SE, Mill Creek

Type: Neighborhood
Acreage: 7
Acquisition Date: 1977
Funding Source: Assessor

Description: One of a series of tracts within several residential neighborhoods, located along the Seattle City Light Transmission Line R/W, south of the City of Mill Creek. This site contains a large pond and several acres of open, flat fields.

History: Deeded to Snohomish County in 1947 for park purposes.

Features: Undeveloped

Future Plans: None
O'Reilly Acres
Ray Grade Rd., Granite Falls

Type: Open Space/Preserve
Acreage: 124
Acquisition Date: 1947
Funding Source: Donation

Description: A 124 acre former farmstead. This property is located along the Pilchuck River, east of the City of Granite Falls.

History: Deeded to Snohomish County in 1947 for park purposes.

Features: Currently undeveloped

Future Plans:
Paine Field
11928 Beverly Park Rd., Everett

Type: Community  
Acreage: 14  
Acquisition Date: 2002  
Funding Source: Mitigation

Description: A 14 acre park, located west of Beverly Park Road. This site was dedicated April 18th, 2009 and features a playground, art installation and four baseball fields.

History: Acquired in 2002 from the Paine Field Airport. The site was purchased to provide a Community Park within the southwest UGA.

Features: Baseball fields, playground, picnicking, parking and restroom.

Future Plans: The site has been planned for installation of soccer fields and half court basketball.
Paradise Valley Conservation Area
Paradise Lake Rd., Woodinville

Type: Open Space/Preserve  
Acres: 793  
Acquisition Date: 2000, 2008  
Funding Source: SRFB, Donation, Mitigation

Description: A wooded property located south of SR 522 on Paradise Lake Road, and adjacent to the Snohomish/King County line. This property contains wetland areas and a portion of the headwaters of Bear Creek. The park provides a series of trails, as well as a mountain bike skills course.

History: An original acquisition occurred in 2000, for 667 acres of this park. Salmon Recovery Funding Board dollars were used for this acquisition, as the purchase was targeted to help protect the headwaters of Bear Creek. This portion of the park contains a historic homestead and was partially funded by the owners, which retained a life estate on the property. Additional acquisition occurred in 2008, to add another 126 acres through mitigation funding.

Features: Trails, mountain bike skills course, parking and sani-can

Future Plans:
Pelz
4320 140th St. NW, Marysville

Type: Community
Acreage: 90
Acquisition Date: 1970, 2007
Funding Source: Donation

Description: A 90 acre property located on the Tulalip Reservation off of Fire Trail Rd. The property is largely wooded and contains a mix of tree species.

History: Eighty acres of the property were deeded to Snohomish County in 1970 for park purposes, with the remainder purchased in 2007 to improve access.

Features: Currently undeveloped

Future Plans: Master plan and development.
Description: Located on the shores of Puget Sound, Picnic Point provides scenic settings for picnicking and beach activities. Numerous tables and charcoal cookers are available. With its excellent views of Whidbey Island and the distant Olympic mountain range, sunset viewing is always a popular pastime at Picnic Point Park.

History: The site was originally used as a logging camp. Timber was brought down the gulch and attached to pilings along the shoreline. The property was acquired from Chevron USA in the 1980’s.

Features: Beach access, picnicking, pedestrian overpass, parking and sanitary.

Future Plans:
Pilchuck
11200 86th St. SE, Snohomish

Type: Community
Acreage: 26
Acquisition Date: 2000
Funding Source:

Description: A 26.3 acre property between the 6th St. bridge (86th St. SE) and 88th St. SE, east of the City of Snohomish and adjacent to the Pilchuck River. The property includes a dike along the river and open field areas. The property is currently used for farming, through agreement for temporary use.

History: Acquired in 2000 as a candidate ballfield site to serve the immediate Snohomish community.

Features: Currently undeveloped

Future Plans: Development as a Community Park.
Pilchuck Conservation

Russell Rd., Lake Stevens

Type: Open Space/Preserve
Acreage: 35
Acquisition Date: 2000
Funding Source: Donation

Description: An undeveloped open space holding with wetland and forested areas. Pilchuck River transects the property.

History: The park was transferred from the Washington State Department of Natural Resources to Snohomish County in 2000.

Features: Undeveloped

Future Plans: None
Portage Creek Wildlife Area

59th Ave. NE, Arlington

Type: Regional
Acreage: 159
Acquisition Date: 1995-1998
Funding Source: Conservation Futures, NRCS

Description: A 159 acre wildlife area home to a variety of wetland plants and animals. Visitors to Portage Creek Wildlife Area can enjoy a network of trails that provide opportunities to see deer, hawks, beaver, raccoons, mink, amphibians, other small mammals and many types of waterfowl.

History: Twenty acres of the site was previously used for peat farming and the remainder was used as a dairy. A large portion of the property was placed into the Wetland Reserve Program through the Natural Resources Conservation Service and funding provided through the Conservation Futures program allowed for acquisition of this property.

Features: Trails, wildlife viewing, parking and sani-can

Future Plans: None
Possession Sound

Type: Neighborhood  
Acreage: 13  
Acquisition Date: 1995  
Funding Source: Tax Title

Description: Tideland area on Puget Sound.

History: Acquired through Tax Title in 1995.

Features: Undeveloped

Future Plans: None
Reiter Foothills
14828 429th Ave., Gold Bar

Type: Regional
Acreage: 8
Acquisition Date: 2010
Funding Source: Conservation Futures

Description: This is an eight acre parcel with a mix of existing open meadow and forest edge.

History: The property was purchased in November 2010 to serve as a primary access point to the adjacent Washington State Reiter Foothills Recreation Area.

Features: Currently undeveloped

Future Plans: Development of a trailhead.
Rhody Ridge Botanical Garden
17415 Clover Rd., Mill Creek

Type: Regional
Acreage: 11
Acquisition Date: 1970
Funding Source: Donation

Description: A 11.37 acre property on Clover Road, just south of 164th St. SE and the City of Mill Creek. Approximately sixty percent of the site has been planted with a multitude of native and ornamental plant species, a great many of which are of the rhododendron family. These plantings offer a broad range of form and texture, as well as seasonal color. The remainder of the property is undeveloped forest. Access to, and site tours, are by appointment only.

History: Acquired in 1970, it is maintained by donating owners as a Life Estate holding. The property has been developed as a botanical garden with an arboretum setting.

Features: Arboretum with limited parking

Future Plans:
Description: With 145.08 acres of large open meadows and forests along the banks of the Stillaguamish River, River Meadows offers recreationists a variety of outdoor activities. Fishing along the mile-long river bank, camping in the open meadow, hiking the meandering trails and viewing wildlife are a few of the opportunities available at this site.

History: The River Meadows site has been occupied for generations. Native Americans used the property as a trading and settlement destination. Two homesteads were located on the property. The Tveit and Hovde families lived on the property and remnants of an orchard still exist on the terrace of the park. Park acquisition occurred in 1955 and development began in 1977.

Features: Trails, camping (including 6 yurts), river access, shelters, picnicking, boat launch, parking and restrooms

Future Plans: Camping improvements
Riverscene
11200 Jordan Rd., Granite Falls

Type: Regional
Acreage: 2
Acquisition Date: 1962, 1998
Funding Source:

Description: This is a small park located on the outskirts of Granite Falls. It provides easy access to the South Fork of the Stillaguamish River. It is enjoyed by fishermen and others for river access.

History: The site was owned by Snohomish County Public Works Department and transferred to Parks during the platting process of nearby lots.

Features: River access and parking

Future Plans:
River Terrace
14828 429th Ave., Gold Bar

Type: Open Space/Preserve
Acreage: .72
Acquisition Date: 1995
Funding Source: Deeded

Description: This property is an open space parcel.

History: The property was deeded to County through platting action.

Features: Undeveloped

Future Plans: None
Robe Canyon
Mt. Loop Hwy. and 22221 Waite-Mill Rd., Granite Falls

Type: Regional
Acreage: 920
Acquisition Date: 1995-2001
Funding Source: Conservation Futures, State of Washington

Description: A 920.44 acre property along the Pilchuck River, accessed via the Mountain Loop Hwy and via Waite-Mill Rd., east of the City of Granite Falls. The park contains two unconnected trail sections that roughly parallel the Pilchuck River. The trail from the Mt. Loop Hwy follows an old railroad grade for significant portions and the Waite-Mill trail accesses a historic lime kiln. The Lime Kiln Trail crosses private property via a trail easement for a portion of the alignment.

History: The majority of this property was acquired from the John Hancock Corporation and Trillium Corporation between 1995 and 1997 with Conservation Futures funds and State of Washington funding assistance. This includes a portion of the historic route of travel of the famous Monte Cristo Railroad. An additional thirty acres was purchased in 2001.

Features: Trails and parking

Future Plans:
Shenandoah Woods
187th Pl. SW, Lynnwood

Type: Neighborhood
Acreage: 2
Acquisition Date: 1988
Funding Source: Dedication

Description: A 1.99 acre tract, located north of 187th Pl. SW, east of Lynnwood. The property is narrow, partially-wooded and located within an established urban neighborhood.

History: Dedicated to Snohomish County for open space in 1988.

Features: Undeveloped

Future Plans:
Description: A .85 acre site located on the Stillaguamish River at the crossing of Pioneer Hwy 530. The park largely consists of a gravel parking area, which is used to provide high bank access to the Stillaguamish River for fishing. The property is owned by Washington State Department of Fish and Wildlife and operated by Snohomish County Parks through agreement.

History: Managed by Snohomish County Parks under a 1968 Use Agreement with Washington State Department of Fish and Wildlife.

Features: River access and parking

Future Plans: None
Silver Creek
180th St. SE and 20th Dr. SE, Mill Creek

Type: Community
Acreage: 10
Acquisition Date: 1979, 1987
Funding Source: Dedication

Description: A ten acre property, accessed via 180th St. SE and 20th Dr. SE, just south of the City of Mill Creek. The park includes a rolling meadow and stream corridor, portions of which are under the Seattle City Light Transmission Line R/W.

History: Dedicated to Snohomish County for open space in 1988.

Features: Walking trails, playground, riparian corridor interpretation and picnicking

Future Plans: None
Silver Firs Section 2
147th Pl. SE, Everett

Type: Open Space/Preserve
Acreage: .14
Acquisition Date: 1998
Funding Source: Dedication

Description: An open space tract in a developed neighborhood, adjoining a transmission line corridor.

History: Plat dedicated to Snohomish County in 1998.

Features: Undeveloped

Future Plans: None
Sky Valley Sportman's Park

Northeast of Sultan

Type: Special Use
Acreage: 156
Acquisition Date: 2010
Funding Source: DNR

Description: A 156 acre property located off the Sultan Basin Road, northeast of the City of Sultan. The property has been managed for timber production by the Washington State Department of Natural Resources (DNR) and contains a large wetland and forested areas.

History: Reconveyed to Snohomish County from DNR for public park purposes in 2010. Reconveyance was pursued in order to provide a public shooting facility.

Features: Currently undeveloped

Future Plans: Master plan and development of property.
Skylight Tracts
157th Pl. SE, Gold Bar

Type: Open Space/Preserve
Acreage: 3
Acquisition Date: 1990
Funding Source:

Description: A 2.82 acre lot, located on the south side of the Skykomish River, between the Cities of Sultan and Gold Bar.

History:

Features: Undeveloped

Future Plans: None
Snohomish River Estuary
East of Everett, South of Marysville and West of Lake Stevens

Type: Open Space/Preserve
Acreage: 1392
Acquisition Date: 1986-2007
Funding Source:

Description: Open space parcels located in the Snohomish River Estuary.

History: Acquired in stages from 1986 to 2007. Acquisitions were pursued for habitat protection and flood attenuation.

Features: Spencer Island is developed with walking trails and picnicking opportunities and provides wildlife viewing. Other estuary properties are undeveloped.

Future Plans: None
Southwest County Park

Description: Southwest County Park lies within the City of Edmonds limits. The site encompasses a series of forested ravines and Perrinville Creek, which flows through the eastern portion of the park to the Puget Sound. Olympic View Dr. winds through the site.

History: During the mid 1900’s the area was logged and used as farmland and residential home sites. The area along Perrinville Creek, composed of forested ravines and wetlands, remained relatively untouched. Pope and Talbot, early owners of the local forests, eventually transferred ownership of this property to the University of Washington. Then, in 1971, Snohomish County obtained the site through a State of Washington, Interagency Committee for Outdoor Recreation (IAC) grant. The deed transfer from the University carried conditions on the future development of the parcel, ensuring that it is forever managed as a passive woodland.

Features: Trails, small parking area and trails

Future Plans: None
Spencer Island

4th St. SE, Everett

Type: Regional
Acreage: 232
Acquisition Date: 1985
Funding Source:

Description: Spencer Island lies in the heart of the Snohomish River Estuary (see separate map), an ecosystem formed by the mixing of fresh and saltwater. Spencer Island is owned by Snohomish County and the Washington State Department of Fish and Wildlife and provides walking, wildlife viewing and picnicking opportunities.

History: A dike was built out of earth and wood chips around the perimeter of the island in the early 1930’s, for flood control, and the island was converted to agricultural uses. In 1996, a cross dike was built on the island and the dike was breached south of the cross dike to allow tidal inundation to return to that area. In 2006, another series of breaches were made in the cross dike and northern dike to allow the remainder of the site to return to pre-diking hydrology.

Features: Trails, picnicking, small parking area and sani-can

Future Plans:
Squire Creek
41415 SR 530 NE, Arlington

Type: Regional
Acreage: 30
Acquisition Date: 1926-1996
Funding Source:

Description: Squire Creek provides tent and RV camping in a beautiful old growth forest. The park is adjacent to Squire Creek. Two large picnic shelters are located near the creek. The park is a perfect staging location for enjoying the nearby Mt. Baker-Snoqualmie National Forest.

History: The site was developed into a campground in 1971.

Features: Camping, creek access, shelters, picnicking, parking and restroom.

Future Plans:
Steelhead Haven

E. Steelhead Dr., Arlington

Type: Open Space/Preserve
Acreage: .55
Acquisition Date: 1976, 1992
Funding Source: Dedicated

Description: Two combined parcels totaling .55 acres, along the North Fork of the Stillaguamish River, between the communities of Oso and Hazel. The properties had been vegetated, but were largely eroded in 2006, when a slide redirected the river.

History: Parcels were dedicated to Snohomish County in 1976 and 1992. The properties were forested shoreline, but a large slide in January, 2006 diverted the river and eroded portions of the nearby bank, including Steelhead Haven.

Features: Undeveloped

Future Plans: None
Stilly River Homesites
South Fork Stillaguamish along Jordan Rd., Arlington

Type: Open Space/Preserve
Acreage: .25
Acquisition Date: 1963
Funding Source: Dedicated

Description: A .25 acre property adjacent to the South Fork Stillaguamish River, along Jordan Rd., southeast of Arlington. The property is partially wooded.

History: Dedicated to Snohomish County in 1963.

Features: Undeveloped

Future Plans: None
Sunset
410 E Shore Dr., Lake Stevens

Type: Neighborhood
Acreage: .27
Acquisition Date: 1919
Funding Source: Dedicated

Description: This pocket park offers an expansive, territorial view of Lake Stevens. It provides lake access and picnicking opportunities.

History: Dedicated to Snohomish County in 1919.

Features: Lake access, swim dock and parking

Future Plans: None
Swans Trail
6525 Skipley Rd., Snohomish

Type: Community
Acreage: 5
Acquisition Date: 1979
Funding Source: Exchange

Description: A 5.16 acre property located west of the City of Snohomish. Located on a hill above the Snohomish River in a large-tract residential area. The site is mostly covered with field grasses and some trees, which are located along the western edge.

History: Acquired through a land exchange with Snohomish School District.

Features: Currently undeveloped

Future Plans:
Tambark Creek
17217 35th Ave. SE, Mill Creek

Type: Community
Acreage: 38
Acquisition Date: 1995/1996
Funding Source:

Description: This site totals almost forty acres and contains a mix of wetlands and upland forests/open areas. The park is currently under development and is anticipated to open in 2013. The park will contain a playground, artificial turf ballfield, off-leash dog area and trails.

History: Acquired, beginning in 1995, to provide ballfields to the community. Purchase was a joint effort between Snohomish County and the City of Mill Creek. Mill Creek retains 25% ownership, while the county has the remaining 75%.

Features: This park is currently under development. Park will include playground, trails, artificial turf ballfield, off-leash dog area, concession area, picnicking, parking and restrooms.

Future Plans:
Tenth St. Boat Launch

10th St., Everett

Type: Regional
Acreage: 23
Acquisition Date: 1974
Funding Source:

Description: A regional boat launch facility located in the City of Everett, off of Marine View Dr. The park features a multi-lane boat launch with extensive vehicle and trailer parking. An adjoining waterfront park is located by the launch and is the Jetty Island Ferry station.

History: Jointly acquired with the Port of Everett and City of Everett in 1974. The park is now maintained and operated by the Port of Everett through an Interlocal Agreement.

Features: Boat launch, picnicking, Jetty Island Ferry, parking and restrooms

Future Plans: Boat launch and restroom upgrades.
Thomas Eddy (Bob Heirman Wildlife Park)

14913 Connelly Rd., Snohomish

Type: Regional
Acreage: 430
Acquisition Date: 1992, 2002
Funding Source:

Description: With its unique setting and outstanding natural resources, Bob Heirman Wildlife Park at Thomas’ Eddy offers the perfect location for viewing wildlife, walking, picnicking and fishing. This natural area encompasses vast open spaces, two lakes, wetlands and riparian areas.

History: This property was previously used for gravel mining as well as agricultural activities. In the 1980’s the site was planned to be subdivided and sold for housing. The Snohomish Sportsman Association, led by Bob Heriman, spearheaded a campaign to preserve public access to one of the most popular steelhead fishing spots on the river. The Parks Department worked with the association to acquire the property. Additional land was added to the park in 2002 when Snohomish County Surface Water Management acquired land around Lake Beecher through a Salmon Recovery Funding Board grant.

Features: River access, fishing, trails, picnicking, parking and sani-can

Future Plans:
Description: ‘Tidelands #1 and #2’ is comprised of two separate holdings, one adjacent to the City of Edmonds and one south of the City of Mukilteo on the Puget Sound. These nearly-flat shorelines are mainly composed of gravel and fine sand. The Burlington Northern Sante Fe railroad line bulkhead forms the easterly edge of the property.

History: These properties were acquired by Snohomish County through Tax-Title action.

Features: Undeveloped

Future Plans: None
Trafton Trailhead
Off SR 530 on 115th Ave. NE, Arlington

Type: Regional
Acreage: 127
Acquisition Date: 1997
Funding Source: Conservation Futures

Description: Located off of SR 530 on 115th Ave. NE, along the North Fork of the Stillaguamish River. This property was formerly used as a dairy, and golf course, prior to acquisition for park purposes and access to the Whitehorse Trail. The property contains significant frontage on the North Fork of the Stillaguamish River and includes open fields, wetlands and wooded areas.

History: Purchased in 1997 with Conservation Futures funding for trailhead purposes.

Features: River access, trail and parking

Future Plans: Master plan and improvements to support trail use and provide park amenities.
Transmission Line Properties

168th St. SE and 180th St. SE, Mill Creek

Type: Neighborhood
Acreage: 19
Acquisition Date: 1977-2003
Funding Source:

Description: A 18.64 acre property located between 168th St. SE and 180th St. SE, immediately south of the City of Mill Creek in SW County. This park is a linear, flat to rolling open space under the Seattle City Light transmission line corridor. A pedestrian trail utilizes an existing service road.

History: Acquired by Snohomish County in the years between 1977 and 2003 as dedicated public open space from residential plat development.

Features: Trail

Future Plans:
Willis D. Tucker
6705 Puget Park Dr., Snohomish

Type: Community
Acreage: 78
Acquisition Date: 2000
Funding Source: Mitigation

Description: A multi-use park, located between the Cities of Mill Creek and Snohomish, which includes a combination of retained natural areas and park amenities. This park also houses the Parks Department administrative offices and meeting rooms are available within the building.

History: The property was purchased by Snohomish County Parks as surplus land from Snohomish County Solid Waste in 2000 and dedicated to Willis D. Tucker, the county’s first Executive.

Features: Ballfields, playground, spray park, off-leash dog areas, trails, shelters, picnicking, half-court basketball, administrative offices, meeting rooms, parking and restrooms

Future Plans: Continued development of the park, including development of soccer fields, additional parking, shelters and ADA access to off-leash dog park.
Twin Lakes (Gissberg)
16324 Twin Lakes Ave., Arlington

Type: Regional
Acreage: 54
Acquisition Date: 1973, 1998
Funding Source: Conservation Futures

Description: Swim or sunbathe on either one of two sandy beaches. Well-kept lawns and numerous picnic areas are available at the east end of each lake. The natural spring fed lakes are stocked with bass and rainbow trout and can be fished year-round. This park is a very popular destination for local fishing enthusiasts.

History: The park originated from the excavation of gravel for the construction of I-5. These two adjoining, rectangular lakes have evolved into a popular 44 acre park, with adjacent 10 acres, purchased in 1998 for wetland mitigation.

Features: Lake access, trail, swimming, picnicking, parking and restroom

Future Plans:
Twin Rivers
22914 SR 530 NE, Arlington

Type: Community
Acreage: 49
Acquisition Date: 1969
Funding Source: Bond

Description: Twin Rivers is a large park located at the point where the North and South Forks of the Stillaguamish Rivers converge. The park provides practice and competition soccer fields and little league baseball fields. Large open areas and trails are available for walking pets or jogging.

History: The property was a former farm. It was purchased with money from the County’s first park bond issue. The Parks Department has an agreement with the City of Arlington to maintain the park and schedule activities.

Features: Soccer and baseball fields, river access, trail, picnicking, disc golf course, parking and restroom.

Future Plans:
Wellington Hills
240th St. SE, Woodinville

Type: Regional
Acreage: 101
Acquisition Date: 2012
Funding Source: Mitigation

Description: A 100.55 acre holding, located east of the Snohomish-Woodinville Rd., along 240th St. SE. The property is currently undeveloped as a park, but was used as a golf course for many years. Development of the property as a multi-use facility is envisioned and a public process to determine site design has been initiated.

History: Acquired by Snohomish County in 2012 with mitigation funds. The property was purchased from the University of Washington.

Features: Currently undeveloped

Future Plans: Completion of master plan and development.
Description: Wenberg Regional Park is located on the eastern shores of Lake Goodwin and offers camping, a boat launch and day use areas. The park is extremely popular and on hot days can reach capacity.

History: The park came under ownership of Snohomish County via a transfer from Washington State Parks in 2009. The transfer was brought about due to State budget concerns and the transfer was executed to ensure the park would be kept open.

History of the park dates back to 1936, when it appears that approximately 20 acres was acquired by Snohomish County for park purposes. In 1947 the property was transferred to Washington State Parks. At the same time as this transfer, an additional 10 acres was added to the park from the Wenberg Public Parks Association. Three additional acquisitions followed in 1960 and 1979, resulting in the compiled park footprint that exists today.

Features: Camping, lake access, playground, swimming, picnicking, shelters, concession building, parking and restrooms

Future Plans:
West Lake Roesiger

Carpenter Rd., Granite Falls

Type: Regional
Acreage: 43
Acquisition Date: 2011
Funding Source: Conservation Futures

Description: A 43 acre property located off of Carpenter Rd., outside of the City of Granite Falls. The property includes improvements installed for a planned housing development, which did not occur. The park is located adjacent to a large holding acquired by Washington State Department of Natural Resources (DNR) and is planned to be developed for access to that property.

History: Acquired in 2011 with Conservation Futures funding to provide future access to adjacent land owned by Washington State.

Features: Undeveloped

Future Plans: Joint planning with Washington State for development of the site and access to the DNR property.
Whitehorse
46609 North Mountain Rd., Darrington

Type: Community
Acreage: 83
Acquisition Date: 1999
Funding Source: DNR reconveyance

Description: A 83 acre park located off Hwy 530 and North Mountain Rd., at the northern edge of the City of Darrington. The park contains three baseball fields and parking to serve the fields.

History: Acquired by Snohomish County through a reconveyance from Washington State Department of Natural Resources in 1999. The park is operated through an agreement with the City of Darrington, which handles day-to-day management of the site.

Features: Ballfields and parking

Future Plans:
Whitehorse Trail  
Arlington to Darrington

**Type:** Trail  
**Acreage:** 458  
**Acquisition Date:** 1993-2008  
**Funding Source:** ISTEA

**Description:** A twenty-seven mile long corridor stretching between the Cities of Arlington and Darrington. The trail follows an old railroad grade and often parallels both Hwy 530 and the North Fork of the Stillaguamish River. Seven miles of the alignment are currently open from the City of Darrington.

**History:** The majority of the corridor was acquired by Snohomish County from Burlington Northern Railroad through a rail banking process in 1993.

**Features:** Seven miles of soft surface trail, stretching from the City of Darrington west.

**Future Plans:** Continued development of the trail.
Wyatt

10508 Chapel Hill Rd., Lake Stevens

Type: Regional
Acreage: 2
Acquisition Date: 1987
Funding Source:

Description: Wyatt park overlooks the beautiful waters of Lake Stevens. It includes a boat launch, swim area, dock with pavilion and picnicking areas. This park is extremely popular with boaters and those wanting to access the lake for swimming, sunbathing or relaxing. The park is located within the city limits of Lake Stevens.

History: The site was originally known as Davies Beach. The privately held property provided beach access and picnic sites to the Lake Stevens community for decades. The Parks Department purchased the property and provided a developed parking lot and improved facilities. In the early 90's the park was redeveloped and received dock and boat launch improvements and landscaping.

Features: Boat launch, lake access, dock, swimming, picnicking, parking and restroom.

Future Plans:
