FINDINGS, CONCLUSIONS AND DECISION

FINDINGS OF FACT

Based on all of the evidence of record, the following findings of fact are entered.

1. The master list of exhibits and witnesses which is a part of this file and which exhibits were considered by the Examiner is hereby made a part of this file as if set forth in full herein.

2. The PDS staff report has correctly analyzed the nature of the application, the issues of concern, the application's consistency with adopted codes and policies and land use regulations, and the State Environmental Policy Act (SEPA). That report is hereby adopted by the Examiner as if set forth in full herein unless otherwise stated below.
3. The applicant, Pacific Ridge Homes, filed an application for a two-lot short plat as a planned residential subdivision on .29 acre zoned R-7,200 addressed 11611 55th Avenue NE, Marysville. There are no critical areas on or within 100 feet of the subject parcel.
4. The project would comply with park mitigation requirements under Chapter 30.66A SCC by the payment of \$48.82 for each new single-family home.
5. The DPW reviewed the request with regard to traffic mitigation and road design standards. That review covered Title 13 SCC and Chapter 30.66B SCC as to road system capacity, concurrency, inadequate road conditions, frontage improvements, access and circulation, and dedication/deeding of right-of-way, state highway impacts, impacts on other streets and roads, and Transportation Demand Management. As a result of this review, the DPW has determined that the development is concurrent and has no objection to the requests subject to various conditions.
6. School mitigation requirements under Chapter 30.66C SCC have been reviewed and set forth in the conditions. No offsite improvements are required for safe student walking because those are being supplied by the plat of Pacific Meadows and, otherwise, students will be bussed rather than walk to and from school
7. The subject site is bordered by single family residences on the all sides, three of which abut the plat of Pacific Meadows (05-127-553).
8. The PDS Engineering Division has reviewed the concept of the proposed grading and drainage and recommends approval of the project subject to conditions, which would be imposed during full detailed drainage plan review pursuant to Chapter 30.63A SCC.
9. The Snohomish County Health District has no objection to this proposal provided that public water and sewer are furnished. Public water and sewer service will be available for this development from the City of Marysville (Exhibit 19). Electricity will be provided by Snohomish County P.U.D. No. 1 (Exhibit 16).
10. The subject property is designated Urban Low Density Residential (ULDR: 4-6 du/ac) on the GPP Future Land Use map, and is located within an Urban Growth Area (UGA). It is not located within a mapped Growth Phasing Overlay. According to the GPP, the Urban Low Density Residential designation covers various sub-area plan designations, which allow mostly detached housing developments on larger lot sizes. Land in this category may be developed at a density of four to six dwelling units per acre. Implementing zones include the R-7,200, which is the case here.
11. The request is consistent with Section 30.70.100 SCC (Section 32.50.100 SCC), which requires, pursuant to RCW 36.70B.040, that all project permit applications be consistent with the GMACP, and GMA-based county codes.
12. Any finding of fact in this decision which should be deemed a conclusion is hereby adopted as such.

CONCLUSIONS OF LAW

1. The Examiner having fully reviewed the PDS staff report, hereby adopts said staff report as properly setting forth the issues, the land use requests, consistency with the existing regulations, policies, principles, conditions and their relationship to the request. It is therefore hereby adopted by the Examiner as a conclusion as if set forth in full herein, in order to avoid needless repetition. There are no changes to the recommendations of the staff report.
2. The Department of Public Works recommends that the request be approved as to traffic use subject to certain conditions.
3. The request is consistent with the (1) GMACP, GMA-based County codes, (2) the type and character of land use permitted on the site, (3) the permitted density, and(4) the applicable design and development standards.
4. The request complies with the Snohomish County Subdivision Code, Chapter 30.41A SCC (Title 19 SCC) as well as the State Subdivision Code, RCW 58.17 and with the Planned Residential Development provisions of SCC 30.42B. The proposed subdivision complies with the established criteria therein and makes the appropriate provisions for public, health, safety and general welfare, for open spaces, drainage ways, streets or roads, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and school grounds, and other planning features including safe walking conditions for students.
5. Any conclusion in this report and decision which should be deemed a finding of fact is hereby adopted as such.

DECISION

Based on the findings of fact and conclusions of law entered above, the decision of the Hearing Examiner on the application is as follows:

The request for a 2-lot Planned Residential Development Subdivision on .29 acre **CONDITIONALLY APPROVED**, subject to the following conditions:

CONDITIONS

- A. The PRD official site plan/preliminary plat received by PDS on April 16, 2007 (Exhibit 9) shall be the PRD official site plan and approved plat configuration. SCC 30.42B.220 governs changes to the planned residential development official site plan; changes to the approved plat are governed by SCC 30.41A.330.
- B. Prior to initiation of any further site work; and/or prior to issuance of any development/construction permits by the county:
 - i. All site development work shall comply with the requirements of the plans and permits approved pursuant to Condition A, above.

- ii. A detailed landscape and recreational facilities plan shall have been submitted to and approved by PDS. The plan shall be prepared in general conformance with Exhibit 9 and in conformance with all required landscape standards for perimeter, streetscape and open space treatment, and shall include a significant tree retention plan.
- iii. PRD covenants, deeds and homeowners' association bylaws and other documents shall have been submitted to and approved by PDS guaranteeing maintenance of open space, community facilities, private roads and drives, and all other commonly-owned and operated property. The documents shall have been reviewed by and accompanied by a certificate from an attorney that they comply with Chapter 30.42B SCC requirements prior to approval by PDS. To ensure permanent, ongoing maintenance of landscape areas, landscape maintenance covenants shall be prepared by the applicant and submitted together with documents otherwise required for maintenance of site improvements pursuant to SCC 30.42B.250.

C. The following additional restrictions and/or items shall be indicated on the face of the final plat:

- i. "The lots within this subdivision will be subject to school impact mitigation fees for the Marysville School District No. 25 to be determined by the certified amount within the Base Fee Schedule in effect at the time of building permit application, and to be collected prior to building permit issuance, in accordance with the provisions of SCC 30.66C.010. Credit shall be given for 1 existing parcel. Lot 1 shall receive credit."

- ii. Chapter 30.66B SCC requires the new lot mitigation payments in the amounts shown below for each single-family residential building permit:

\$1,263.24 per lot for mitigation of impacts on county roads paid to the county,

\$37.88 per lot for transportation demand management paid to the county,

The developer of this subdivision has elected to defer these payment obligations to a time preceding building permit issuance. Notice of these mitigation payment obligations shall be contained in any deeds involving this subdivision or the lots therein. Once building permit has been issued all mitigation payments shall be deemed paid.

- iii. "All open space shall be protected as open space in perpetuity. Use of the open space tracts within this subdivision is restricted to those uses approved for the planned residential development, to include open play areas, picnic areas, recreation trail system, viewing platform, drainage facilities, benches and required landscape improvements as shown on the approved site plan and the approved landscape plan. Covenants, conditions and restrictions as recorded with the plat, and as may be amended in the future, shall include provisions for the continuing preservation and maintenance of the uses, facilities and landscaping within the open space as approved and constructed."

- iv. The developer shall pay the County \$48.82 per new dwelling unit as mitigation for parks and recreation impacts in accordance with Chapter 30.66A SCC; provided, however, the developer may elect to postpone payment of the mitigation requirement until issuance of a building permit for that lot. The election to postpone payment shall be noted by a covenant placed on the face of the recorded plat and included in the deed for each affected lot within the subdivision.

- D. Prior to recording of the final plat:
 - i. A bond or other guarantee of performance shall have been submitted to and accepted by PDS to assure compliance with the provisions of SCC 30.42B.125.
- E. In conformity with applicable standards and timing requirements:
 - i. The preliminary landscape plan (Exhibit 9) shall be implemented. All required detention facility landscaping shall be installed in accordance with the approved landscape plan.
- F. All development activity shall conform to the requirements of Chapter 30.63A SCC.

Nothing in this permit/approval excuses the applicant, owner, lessee, agent, successor or assigns from compliance with any other federal, state or local statutes, ordinances or regulations applicable to this project.

Decision issued this 16th day of July, 2007.
