

Sno/Stilly LIO Workplan Theme Alignment Crosswalk

	Regulatory Effectiveness/ Enforcement	Riparian Buffers	WQ / Shellfish / OSS	Public Involvement	Salmon Safe	Climate Resiliency	Fish Passage Culverts
2022-2026 AA Strategies							
1. Advance smart development and protect intact habitats and processes by channeling population growth into attractive, transit-oriented urban centers with easy access to natural spaces	✓	✓			✓	✓	
2. Reduce pressure for land conversion by supporting the long-term viability and sustainability of agricultural lands and working forests through resilience and integrated management planning, improved incentives, and improved land use regulations	✓	✓	✓			✓	
3. Protect and restore marine shorelines by improving compliance, incentives, and strategic planning rooted in an understanding of coastal processes, with a focus on bluff backed beaches *Sno/Stilly assumes this includes lakes and marine environment	✓	✓	✓			✓	
4. Protect and restore riparian areas by improving regulatory frameworks and incentives *Sno/Stilly assumes this includes lakes and marine environment	✓	✓	✓		✓	✓	
5. Protect and restore floodplains and estuaries (including associated riparian habitats) by advancing integrated river basin management planning, policies and regulations and accelerating implementation of reach-scale plans	✓	✓				✓	
6. Address fish passage barriers and reopen salmon habitat by accelerating strategic planning and sequenced implementation of projects						✓	✓
7. Understand and plan for future freshwater availability and implement regulations, projects, and voluntary approaches to reduce water demand and encourage conservation, as well as reclaim and reuse wastewater where appropriate	✓		✓			✓	
8. Prevent pollution by promoting the development and use of safer alternatives to toxic chemicals and improving regulatory frameworks and incentives	✓		✓		✓		

9. Address cumulative water pollution impacts on Puget Sound through TMDL (total maximum daily load) plans, PIC (pollution identification and correction) programs, and other mechanisms	✓	✓	✓		✓		
10. Manage stormwater runoff and legacy contamination by improving regulatory frameworks and incentives, including using a comprehensive approach at the site and landscape scales	✓	✓	✓		✓	✓	
11. Reduce pollutants released from and prevent pollutants from entering wastewater systems (i.e., treatment plants, large and small on-site septic) by improving regulatory frameworks and incentives and investing in new technology	✓		✓				
12. Reduce and prevent non-point source pollutants from agricultural and forest lands by improving outreach and incentive programs and ensuring compliance with policies	✓	✓	✓		✓		
13. Implement targeted and adaptive maritime oil spill prevention and safety measures, and improve spill response readiness and capacity			✓				
14. Monitor and rapidly respond to the introduction and spread of terrestrial and aquatic invasive species		✓				✓	
15. Implement harvest, hatchery, and adaptive management elements of salmon recovery		✓				✓	✓
16. Protect and restore submerged aquatic vegetation by expanding public outreach, education, and voluntary programs, ensuring regulatory protection, and implementing restoration projects	✓					✓	
17. Promote best practices by boaters to protect water quality and life in Puget Sound			✓				
18. Understand and build awareness of the effects of changing climate and ocean conditions on Puget Sound		✓				✓	
19. Advance and support efforts to reduce greenhouse gas emissions and increase carbon sequestration		✓	✓			✓	
20. Integrate climate adaptation and resilience into all strategies to protect and restore ecosystems and human wellbeing			✓			✓	
21. Ensure that the wellbeing derived from place attachments among all residents of Puget Sound is recognized, understood, and respected				✓			

22. Expand and promote equitable access to information and opportunities for engagement for responsible outdoor recreation and stewardship actions				✓			
23. Promote transparent and inclusive governance that engages all peoples equitably, with a focus on expanding trust and inclusion of underrepresented communities	✓			✓			
24. Engage with communities to identify, protect, and enhance opportunities for cultural practices and access to safe and abundant local foods		✓	✓	✓			
25. Implement policies and programs that maximize benefits and minimize adverse impacts to both ecosystems and natural resource industries and livelihoods		✓	✓				
26. Protect human health, considering disproportionate impacts on sensitive populations, through programs that educate communities and limit harmful exposures from air and water contaminants	✓		✓	✓		✓	
Total number of strategies addressed	14	14	16	5	6	15	2
