

SNOHOMISH COUNTY PUBLIC WORKS

S. Fork Sauk River Bridge #540

Repair of South Fork Sauk River Bridge No. 540 is still on track to happen this year. Our engineering group has been working on the plans, but we don't have a specific date or details about construction yet. The work will begin no sooner than mid to late August. During construction the bridge will be closed to all traffic, including pedestrians, so hopefully you can enjoy your summer before work begins.

As soon as we have details of possible construction timing and impacts I will let you know. Contact me any time you have questions.

Best regards,
Tina Hokanson, Communications Specialist
