

SNOHOMISH COUNTY PUBLIC WORKS

196th Street SE Paving Postponed

After additional survey by the Road Maintenance crew, Snohomish County Public Works has decided to defer paving of the first 500 feet (Phase 1) of 196th Street SE east from Yew Way to spring/summer of 2015 when conditions are best for asphalt work. Improvements anticipated for 2015 include:

Phase 1 (first 500 feet)

- Modification of the slope to improve sight distance
- Modification of the Yew Way intersection to improve the landing and square up the "T" intersection
- Widening of the road to 20 feet and paving
- Installation of ditches and stormwater improvements as needed

Phase 2 (next 1300 feet)

- Widening of the road to 20 feet, and paving
- Installation of ditches and stormwater improvements as needed
- Use of permeable pavement and other Low Impact Development stormwater techniques where feasible
- Construction of a vehicle turn around

More information is available by visiting the county's website: www.snoco.org, and typing road projects in the search box. Select 196th St SE from the list.
