

# Road Closure Coming to 44th Avenue W and 153rd Place SW

To help reduce localized and roadway flooding, Snohomish County Public Works will be modifying the existing regional storm-water pond (PAWS pond) located northeast of the 44th Avenue W and 153rd Place SW intersection. This project will help address the existing storage capacity of the pond, reduce maintenance issues, and increase downstream water quality.

## Road Closures

As part of the work, there will be two short-term road closures in the area. During these times, local traffic will be allowed access to closed roads and driveways via detours. Closures include:

- A** A two-day road closure on 153rd Place SW between 44th Avenue W and 45th Place W with local access from the west.
- B** A two-day road closure on 44th Avenue W between 152nd Street SW and 153rd Place SW with local access from the north.

## Timeframe

Construction is expected to occur during summer 2015 with all roads reopening before September 8, 2015 at the latest.

Note: The cluster mail unit (mailboxes) located on the east side of 44th Avenue W near PAWS (15305-44th Avenue W) will be temporarily moved from north of the PAWS driveway to the south side of the driveway for a two-week period.
