

SLS WORK PLAN PRIORITIES — DISCUSSION DRAFT

1. Resilient Lands Initiative
 - a. Broad, flexible (among F3 needs) protection from development
 - b. Easement tool
 - c. Funding sources and tools
 - d. Demonstration “focus areas”
 - e. Campaign and broad consensus to protect resource lands

2. Regulatory Reforms
 - a. Drainage maintenance example (FSFCD) and template
 - b. Water management flexibility for net gain (WID, lower river water use toolbox)

3. Watershed Scale and Reach Plans
 - a. Template (I have also attached a one-pager template and a reach scale map for the group to consider)
 - b. Focus area reach plans:
 - i. Lower Sky,
 - ii. Lower Sno,
 - iii. Estuary
 - iv. Stilly

4. Implementation
 - a. Funding
 - i. SLS capacity
 - ii. Resource land protection: PDR, TDR, lease, CREP
 - iii. Assessment and modeling
 - iv. Reach / Basin packages (FbD,
 - b. Broad support and engagement
 - c. Policy proposals (fed, st, local)

5. Project Level
 - a. Reach based technical, design, implementation assistance (TEAMS, MAP)
 - b. Designing, gaining local community and landowner agreement.

- c. Managing permitting and construction process
- d. Monitoring and sharing results
- e. How do these actions align with the agreed upon reach scale plans, strategies and actions? What are the limitations and what is the governance structure for overcoming these limitations?
