PLANTING PLAN NOTES:

1. NOxious weed and unwanted vegetation in planting areas shall be treated with herbicide or removed prior to planting of mulch.
2. A minimum of 4" of bark or wood chip mulch and 1" topsoil type A shall be placed over all planting areas.
3. Plants in planting areas shall be protected by the use of a barrier, covered by plastic, or wood chip mulch. Planting areas shall be edged by construction methods.
4. All plants over 48 inches in height shall be staked with two 3' x 2' poles and anchored with plastic ties to the trees.
5. No trees shall be planted under overhead power lines.
