Hi Darryl,

I can't seem to find the DVD you sent to Pat a few years back. I'm also having trouble getting to some of the projects documents on the County website. I'd mainly like to look over the proposed scope of the EIS. If such a document exists. May be easiest if you could send me a couple of project links.

Thanks

Hi David,

Originally Patricia Lambert with the Shoreline Division was assigned to the Point Wells redevelopment project. She sent an e-mail back in March 2011 requesting additional information on the proposal. I believe I sent her a copy of the DVD that contained the application materials. I tried to send an e-mail today to ask her if she had any comments on the scope of the EIS required for the project and to let her know that the scoping period was extended to April 2nd. However, I received a message that the e-mail was undeliverable. I also wanted to follow up to see if she had received the DVD of the application materials. I also called the phone number I had for her and spoke with another planner who thought that perhaps Patricia is now longer with Ecology, or at least not working in the Shoreline Division.

My main purpose in sending the e-mail is to make sure Ecology has an opportunity to comment of the scope of the EIS for the project and to make sure Ecology received a copy of the DVD of the application materials that were submitted in 2011.

Thanks.

Darryl
