The concern I have is with all the added cars, the pedestrian safety. Lately I have noticed more traffic and higher rates of speed with that, I'm not sure why the added traffic, but walking along the side walk up/down RB road is so dangerous.

I would like to see a guard rail or some added pedestrian safety feature. One hit of the curb by a car would jump the curb and there are a lot of people using the sidewalks.

thank you

as for the car traffic, put a road through Snohomish county!
