**Subject:** Point Wells Scoping Comment

Dear Mr. Eastin,

I am not able to attend the Point Wells scoping meeting scheduled for February 18, 2014. I am submitting comments to you regarding the proposed Point Wells development project. Please evaluate auto traffic impacts (all aspects - including impacts to air quality and noise) to 185th Street all the way from Aurora to I-5. That corridor currently has bike lanes that should be maintained, especially in light of the future light rail station to be located at 185th and I-5. Access to that train station should include both safe motorized and non-motorized routes -- for bikes and peds as much as autos.

Thank you,  
Maaren Chapman
