Comments:

I strongly believe that Snohomish County needs to make its own access road to this Point Wells development.

It is ridiculous to think the roads through neighborhoods in Richmond Beach are adequate for the increased use or that the citizens should have to accommodate that increase.

Snohomish county needs to work with Woodway to work out their solution. After all, Snohomish county will have all that tax money from the property development. It can afford to build a new freeway for the 3000+ new residents!

Input to the scope of the EIS can be given verbally at the public scoping meeting or in writing at any time during the comment period, which ends on March 3, 2014. Written comments can be sent to:
