Dear Mr. Eastin,

We have been reading samples of the many letters that you have received from local concerned friends, neighbors and citizens.

I don't think there is any need to list in detail all of the concerns about this project that would so markedly and adversely effect our community and our lives.

We are so totally against a project of the proposed size. Just the traffic issue says enough, let alone all the rest.

I understand that some project is GOING to happen. Please let it be a project that enhances, a project that the majority of the people can support, can be enthusiastic about, can see it enhance Shoreline for future generations. Make us proud.

I know that you cannot please "all of the people, all of the time", but certainly you could try for the majority of those affected.

Please consider our vote a resounding NO for the project proposed at this time.

Most sincerely,
John and Diane Geary
