Subject: Point Wells Urban Center

Dear Mr. Eastin,

My wife and I own a townhome at 15th Ave NW and Richmond Beach Road and we are seriously opposed to the Point Wells Urban Center. We can't see that the people living along the Richmond Beach Road and the adjacent properties have been given any consideration for what they will have to endure, if this project goes forward. Snohomish County stands to gain at the expense of those living in the Richmond Beach area. For us there will be a great deal of pollution from dirt and dust, noise and exhaust, due to the enormous increase in traffic on Richmond Beach Road. At present the traffic during certain times of day is heavy, but nothing compared to what it will be during the construction phase and due to a huge increase in population upon completion.

Please take into consideration the type of community Richmond Beach is and help to put an end to this project.
