Comments:

1. Please consider all impacts from the Shoreline (King County) side of the border of Point Wells. Virtually no impacts will occur in Snohomish County. This includes schools, libraries, care facilities for children and adults such as day care & Senior services.

2. Require Pt Wells to contribute to the services above through reciprocal agreements, fees, or tax.

3. Do not mislead the public or misconstrue the impacts or data regarding modal split to reduce SOV trips. Very, very few residents or visitors will travel to & from Pt. Wells by transit, bike, or taxi. Service is limited. It will not be a preferred choice for off-peak travel and few commuters will choose transit. Be very honest about this issue.

Thank you.

Input to the scope of the EIS can be given verbally at the public scoping meeting or in writing at any time during the comment period, which ends on March 3, 2014. Written comments can be sent to:
