Subject: Re: Point Wells request for May 11 to June 7, 2015

Thanks Ryan.

I have another thought re the EIS discussion of the 2nd road. It would be helpful if the EIS not only set forth the assumed percentage of traffic to/from Point Wells that would use the 2nd road, but most importantly, if the EIS also provided a thorough explanation of how that assumed percentage was arrived at; what's the analysis and support for the assumption.

Thanks for listening.

Have a great weekend.

Cheers,

Tom

Hi Suzie and Tom,

I am scanning my notes for the periods covered by the two most recent two disclosure requests and discovered that I had misfiled the attached set of notes that should have been included in an earlier request covering May 11 to June 7. The notes are from a June 3 meeting, but my sloppy handwriting led me to file them as 6/31/15. Even I know that June only has 30 days, so I double checked my calendar and the meeting was indeed on 6/3/15.

My apologies.

Ryan
