Subject: Re: Denial of Annexation Petition

Correction: BSRE submitted an Urban Center development application to Snohomish County in 2011 for the site known as Point Wells.

As a prerequisite to annexation, it is requested that the County require Woodway to agree to permit a public access road to the Point Wells site to connect to the road running through Mr. Barto's property.

Thank you.

> The attached annexation petition signed by Jerrel Barto should be denied as it does not provide for a public access road for vehicular traffic (not just an emergency access road) that connects Mr. Barto's property to the adjacent property to the west known as Point Wells that is owned by BSRE. BSRE submitted an Urban Center development application to Snohomish County in 2014; it's application is pending.
