Subject: Point Wells, Scoping comments

Darryl,

My wife and I live at 2625 NW 205th St, Shoreline, 98177 and have lived here since we built our home in 1968. As you see our house is on the county line and we also own a share of the beach property that is adjacent to the Point Wells sight. Very few other people are as close to the site as we are physically.

We are not opposed to development of the Point Wells site!! We are, however, very concerned about the traffic issue on Richmond Beach Drive NW. Our concerns are for the safety and transportation of people in and out of this compressed area of development. If aesthetic, environmental health, air quality all play roles in a EIS, then cars must be limited drastically on the single road that is proposed to service this area.

If Snohomish County can provide an entrance and/or exit to the area so many of the concerns of ours will be answered and we could be a supporter on this development. The traffic generated by this development must be the prime concern to the people in decision making roles in Snohomish County.

Thanks for your consideration of our very singular concern.

Sincerely,

Ken and Pearl Noreen
2625 NW 205th St.
Shoreline, WA 98177
