I am totally against the aforementioned project. It will have a totally negative impact on our residential neighborhood. First of all the projected project is located in Snohomish County and will have no impact whatsoever on the residents of that county. I believe it will have an adverse effect on the property values in Richmond Beach plus causing untold traffic issues. I have lived here in the same residence since 1960 and am totally baffled as to why there would be any question on whether this project should be allowed to proceed. What will be done as far as the roads are concerned and who will pay for it? Will our property taxes be raised again to accommodate this project? Our government is SUPPOSED to be for its constituents not big money ventures. My vote is a resounding NO!!!

Thank You,
