Subject: Point Edwards Construction Data

Ryan:

First of all, I want to thank you again for the informative conversation I had with you several days ago. I appreciate your being receptive to community comments as you work on various projects such as Point Wells.

On a related matter, our community group is trying to get a handle on realistic estimates of a timeline for site remediation, construction timetable, and sales forecasts to arrive a full "sell out" by phase of the Point Wells development.

It occurred to us that it might help us to know the approximate timeline experienced at the Point Edwards project. So far we have not been able to find any information. Could you steer us in the right direction, or perhaps you have a way of retrieving this information directly.

If you want to talk about this further, don't hesitate to call.

Thanks for your consideration of my request,

Jerry Patterson
