**Subject:** Wells Point- Email Against Development

Mr. Eastin, I'm writing my comments in response to a post card I received today regarding a 2-18 Notice of Public Meeting re the 20500 Richmond Beach Dr NW Point Wells condo project. Your name and phone number as project manager for the scope of the environmental impact of this development, was on the card.

I oppose the further development of the Wells Point project because of the additional future traffic impact which will be the result.

Existing arterial streets running from the development east through Richmond Beach are already inadequate and cannot accomodate any more traffic. The consequence will be Wells Point residents taking shortcuts through Innis Arden, a private residential community served by single lane two-way traffic, in the effort to avoid the inevitable Richmond Beach area traffic jams.

Accordingly, I vote that this development be curtailed until a reasonable traffic solution to the potential horrific traffic volumes headed east is established.

Respectfully submitted,

Barry J. Reischling
