Subject: Point Wells

Darryl,

I understand that the County has recently issued a Scoping Notice for the EIS that is being required for the Point Wells Mixed Use Project. Would you be able to tell me what additional notice/comment opportunities the County will provide (voluntarily or pursuant to applicable law) to the public SUBSEQUENT to the County's completion of the DEIS? Stated otherwise, from the County's perspective, what formal opportunities will exist for comment between the time that the initial draft of the DEIS is completed and the time that any actual permit is issued to the applicant for a project-specific permit?
