POINT WELLS MIXED-USE REDEVELOPMENT PROJECT EIS

PUBLIC SCOPING MEETING, FEBRUARY 18, 2014 PUBLIC COMMENTS ON SCOPE OF EIS

Comments:

The projected impact to the residential city of Shoreline would be horrific - it will ruin neighborhoods and have a negative impact on the nearby marine animals, water fowl, not to mention the pollution.

The streets can not handle the traffic and why should the good citizens of Shoreline pay for the roads etc that the people who live in that community pay taxes to a different county will use. 3,081 units + shop space - holey moley - the traffic, noise and pollution in that small area - unacceptable.

I get mixed use areas - but, as an asthmatic, that likes to walk - I'm concerned about air quality - that many cars on the road all going through Shoreline - very concerned, traffic in Shoreline is horrible as a walker I want to feel safe and be able to breathe.

I don't like that area - and there are a lot of walkers & walkers w/ dogs make a park!!

Seriously they need to run it through Sno County
Bus service is being cuts

Input to the scope of the EIS can be given verbally at the public scoping meeting or in writing at any time during the comment period, which ends on March 3, 2014. Written comments can be sent to:
