Comments: Dear Sir,

after attending the EIS meeting on Feb 18, it appears to me that it is unfair to burden the residents of Shoreline with the horrible traffic burdens Point Wells would create. This project will have a huge irreversible negative impact and will decrease our quality of life significantly. We have lived in this area for 14 specifically because of the quiet, relaxed feel of the neighborhood. If this project gets shoved down our throats all of that will change. I envision a massive exodus from Shoreline & a devaluing of real estate because no one wants to put up w/ already increasing traffic & noise issues.

Why should Shoreline pay this dear price when it is Snohomish Co. that will benefit w/ tax revenues?

Keep this out of King County please.

Thank you. Barbara Wilson

Input to the scope of the EIS can be given verbally at the public scoping meeting or in writing at any time during the comment period, which ends on March 3, 2014. Written comments can be sent to:
