Dear Hearing Examiner, Snohomish County,

We are residents of Shoreline and live in Richmond Beach.

We strongly oppose the Point Wells development given the anticipated density and extremely limited access to the site. The developer's plan would impose an unacceptable amount of traffic on a road system that is simply not designed for such use. Stuffing Blue Square's massive development into a landlocked tract with limited access would pose unacceptable impacts on the Richmond Beach neighborhood and the City of Woodway.

Thank you.

Sincerely,

Thomas Haensly
