In regards to the Point Wells Project I can't believe the terrible traffic it will cause. With 3000 plus units coming in that will be alot of extra traffic and more than likely most of the units will have two cars. I can't even begin to imagine the wait time to get onto Richmond Beach Road as of now I have to wait 5 minutes or more to get on. Also with decreasing the lanes to one up and one down it will be insane, plus if a bus is ahead of you the back up will be crazy. The roads will get more wear and tear and who will pay for that? There is not enough parking at the beach or in the area now and I feel people will disrespect people's property when the area gets overpopulated. I have been against this project from day one and I'm still 100% against it.
