---

Hello, I am writing to ask you to please reduce the size and scope of this project. We can't afford to have more traffic on a one lane road out of Richmond Beach. You are also asking the people of Shoreline to bear the burden while your county receives the tax revenue. This is not right. Finally, I am very concerned about the environmental impact of the development with regards to landslides and the damage to the Puget Sound and wildlife. Once you destroy it, it will not come back. We are at a tipping point. Please make the right decision.

Thank you,

Moria Blair
