Hi Gary,

A week ago, you asked for another week to talk with your client. Sometime prior to that, you and I discussed that the part of the reason why I wanted to update our website was because one of the reporters from The Herald was asking for an update on the project. I told the reporter that there would be an update today. I suppose that you are right that media communications are not a deciding factor here. In any event, I should let you know that I have had conversations today with representatives from both Shoreline and Woodway regarding the content of what had been proposed for the update to our website.

Since I will be going on vacation until October 19, I will simply remove all updates from our website for now. Hopefully you will receive direction from your client in the interim and we can discuss when I am back. Meanwhile, I will have County staff reviewing their respective parts of the preliminary DEIS and project application stop work. See [SCC 30.61.220](#).

Ryan

OK, but can you please explain why it is so important to post something now. Why not wait till we have a chance to explain to our client?

Hi Gary,

I just left a voicemail explaining why some of the suggested edits will not work for us. I am attaching some further revisions that include sidebar comments explaining. I'll be posting the attached language (minus track changes and comments) to our website shortly.

Ryan

Subject: notice regarding SEPA status

Ryan—We like the attached language better in that it doesn't presume an outcome of our re-examination. If something must be posted, this should serve both our purposes.

Thanks.
