To Whom It May Concern:

That Snohomish County, the City of Shoreline, and other entities continue to devote time, energy, and taxpayer dollars to this speculative and exploitative project is, in my opinion, a waste of these resources that could be much better directed toward the current needs of our local citizens (who are voters...). This project needs to be denied at every level--on behalf of the local common good. As proposed--and even in a mitigated form--this project in no way serves the needs of anyone, except for the developers themselves.

Thank you for your attention to this matter now before you.

Sincerely,
Rick McClurg
