---

To whom it may concern:

I am a resident of Shoreline & live at 19718 6th Place NW. I am very concerned about Point Welles because of the width of the street coming & going to Point Welles itself.

Have you as a committee taken a field trip & driven down the road to get to and from where Point Welles will be located. Now multiple the trip by 3000 new people per day ---coming and going and extra trips.

How is it possible to put in this development & use of King County roads & increased traffic onto a county that benefits nothing?

What has been done to Richmond Beach Road over this past week is horrible. There is so much traffic backed from Aurora. What are you thinking will happen when you DOUBLE the traffic.

Its going to impact our street for cut-through traffic which we already get because of Costco.

I am completely against the Point Welles development because the information I read was that they wanted it to be a destination point meaning MORE traffic & people.

Why don't you put in a 4 lane road from Point Welles & run it up through Edmonds & funnel the traffic that way. Hmmm --- Edmonds residents unhappy with that idea?

Unhappy in Shoreline,  
Rhonda Bolton
