Dear Examiner,

I am writing to strongly state that I object to the development of Wells Point. My family has lived in Shoreline for over 20 years and have loved our house, garden and neighborhood. In the last few years I haven't liked how many trees have come down when a new house goes up and the yard is decimated. The other sore spot is the traffic increase, especially along Aurora and 185th street.

The plans I heard about for Wells Point would bring thousands of more people, more cars, more traffic, more lines and more headaches. I would hate to see the houses, some of my friend's houses, be destroyed by the railroad tracks to make room for more roads. I also dismay at the possible destruction to the beach. Already I find trash, beer bottles, (often broken) and dog owners who leave their dog poop behind. What would thousands of more people do the beach?

No, No and No!!! I hope it gets turned into a park and that the developer will go away. He isn't from our community, doesn't care about our quality of life. It's all about the dollar signs. Send him packing!

Thank you for listening. We don't want to feel pushed out of our home and neighborhood, but if this plan goes through with the amount of more people and cars, it may do just that. It's hard enough with all the development going on and is planned for along 185th because of the light rail.

Sincerely,

Colleen Holbrook
