---

Hearing Examiner,

It is with great alarm to us as a family that the developer for Point Wells seems to still be considering his plan in spite of the county's rejection of his application. We are very much against the huge development proposed at Point Wells as it is so out of proportion for the impact it will have on us as well as our community.

We live on 116th Ave. W in Woodway which means our driveway will exit onto the proposed road which would be next to our home. We now live on a very peaceful, private country lane chosen because of the privacy and quiet it affords. We do not want that lane changed into a wider paved street on which 2,000 plus cars will travel a day. It is too narrow at present so a natural stream on our property will be impacted as well as our lifestyle, property value and safe access. At the present time the current single lane services three homes with very minimal traffic perhaps four to six cars per day. It would be ridiculous to expect that narrow strip of land to handle 2,000 plus cars a day without major changes to the area and resulting in a far reaching impact to private property as well as the city. Woodway is a beautiful, peaceful forested town unique to the Seattle area and glorious in it's beauty. It would be a terrible loss to the county to allow a developer to change that to the extent he proposes and without adequate documentation that the road can even be built to county codes. Woodway would become just another congested WA city if this developer is allowed to proceed against so many objections and noncompliance. We are placing our faith in you that you will decide on what is right and just.

The application for the Point Wells Development fails to prove that the second access road can be built in compliance with county codes. PLEASE REJECT THE POINT WELLS APPLICATION AS THE COUNTY HAS RECOMMENDED and DO NOT ALLOW THE DEVELOPER ANYMORE EXTENSIONS.

Thank-you,  
Bonnie and Ralph Weber  
24226 116th Ave. W. Woodway, WA
