Attention Hearing Examiner

It was clear to me and all of Richmond Beach why they denied the Point Wells Project. The community of Richmond Beach have spoken. The project is too large. There is only one road, and people can be trapped and lives lost, like that of the community up by Arlington WA, lets not make another mistake! We have slide areas here in Richmond Beach and up and down in Puget Sound. We have to plan carefully, and not let Money have the sayso There is the marine life also and a lot of environmental issues. The Richmond Beach counsel denied them . The community does not support the project! Please do not Okay this Project!

Thank you
