

## Locust Way Closed During July for Project

A culvert replacement project is scheduled to begin in early July 2012 on Locust Way just south of Filbert Road. Snohomish County Public Works will replace a failing and undersized culvert with an upgraded one designed to current Washington State Department of Fish and Wildlife fish passage standards. This will maintain the integrity of the road and improve conditions for fish.

Locust Way will be closed to all through traffic for approximately two weeks during mid-July. Construction is expected to be completed by early August. The detour route will be posted along Locust Way, Larch Way, and Cypress Way (see map). We regret any inconvenience this may cause you and ask for your patience during construction.

If you have any questions, please contact Tina Hokanson, Public Works Communications Specialist, 425-388-3789, [tina.hokanson@snoco.org](mailto:tina.hokanson@snoco.org).
