

Notice of Land Disturbing Activity and SEPA Threshold Determination

Drainage Improvement Near 140th Street SW & Serene Way, Phase 2

Project Description:

1. Snohomish County Public Works proposes to replace in kind the existing drainage conveyance system between Serene Way and Beverly Park Road. The project would remove a total length of 443 linear feet of existing 18-inch corrugated metal pipe and replace it with 18-inch corrugated polyethylene storm sewer pipe. Four catch basins will be replaced. Instream channel work would also occur to improve drainage and reduce stream erosion. The preliminary estimates include excavating 226 linear feet in the open channel portions of the project that would remove approximately 406 cubic yards of streambed and stream bank material. All disturbed areas will be vegetated or otherwise stabilized to prevent erosion. 2. Work in the stabilization reach, downstream of the main project area, will involve placing approximately 38 cubic yards of a cobble and gravel mix to create grade control structures.

State Environmental Policy Act (SEPA) Decision:

On August 8, 2018, Public Works determined that this project does not have a probable, significant adverse impact on the environment and has issued a Determination of Non-Significance (DNS). An environmental impact statement (EIS) under RCW 43.21C.030(2)C is not required. This decision was made after review of SEPA documents and other information on file with this agency. These documents are available for public review upon request.

SEPA Appeal: This DNS may be appealed pursuant to the requirements of SCC 30.61.300 and Chapter 2.02 SCC. This DNS and LDA are subject to a 21-day public and agency comment period. Written comments may be submitted by mail or email to the lead agency's contact person (see other side). Comments must be received by 5 p.m. on September 4, 2018.
