

Possible Closure of May Creek Road

The bank next to Bridge #559 has eroded and Snohomish County Road Maintenance crews will soon do the work to stabilize it. Due to the advanced erosion and potential future flooding, the banks may continue to destabilize. If this happens, the County will immediately close May Creek Road at the bridge to prevent unsafe traveling conditions.

In the event of such a closure, signs will be posted on the road to notify residents.

To register for e-mail updates on this project, visit Snohomish County's web page, www.snoco.org, and type "Bridge 559" in the search box. For information on other major road projects, type "road projects" in the search box.
