- Skyko Subdivision

Current Conditions on the Ground

- Photo 01: Looking downstream, the road corridor is closed at Milepost 3.4.
- Photo 02: Project Location.
- Photo 03: Looking upstream, the access to the North Fork Skykomish River is closed at Milepost 6.4.
- Photo 04: Looking up the pass located on the north side of the new sidechannel. Of particular note is the volume of water found in the new sidechannel.
- Photo 05: Looking downstream, this photo shows a portion of the existing road corridor. The inset map shows the amount of rock debris frequently deposits a large volume of water returns back towards the river.
- Photo 06: This photo shows the steep switchbacks below Jack’s Pass located on the north side of the pass. Without the assistance of snow navigation, negotiating the road is quite hazardous.
