19

20 NOW, THEREFORE, BE IT ORDAINED:
21

22 Section 1. Snohomish County Code Section 13.10.050, last amended by
23 Ordinance No. 02-098 on December 9, 2002, is amended to read:

26 Right-of-way use permits will not be required:

27 (1) For activities requiring a license or permit pursuant to the general business
28 license and regulations code, Title 6, SCC. Applications which are expected to utilize
29 right-of-way shall be reviewed and approved by the engineer before the issuance of any
30 license or permit.

31 (2) For franchised utilities when responding to emergencies that require work in the
32 right-of-way such as water or sewer main breaks, gas leaks, downed power poles when
33 the new placement is uniquely different from the original or similar emergencies;
34 PROVIDED, That the department shall be notified by the responding utility, verbally or
35 in writing, as soon as practicable following onset of an emergency and an appropriate
36 right-of-way permit be applied for at that time.

41 through the legislative process such as for franchise, establishment or vacation of right-
42 of-way, easements or deeds. Application for permission with respect to the foregoing
43 activities shall be required, received, and processed the same as one for a required
44 permit.

2 construction of improvements proposed by a developer. At the discretion of the
3 engineer, relocation of utilities to provide for activities and construction undertaken by or
4 under contract to the department may also be exempt when review and inspection will
5 be conducted as part of the department's policies.

6 (6) For temporary political signs. As public right-of-ways are found to be part of a
7 traditional public forum, temporary political signs may be placed within the county right-
8 of-way. PROVIDED, That:

9 (a) Such signs shall comply with all applicable provisions of the Revised Code of
10 Washington (RCW), including Chapter 29.51 RCW and Chapter 42.17 RCW, and the

13 distance requirements in accordance with the Engineering Design and Development
14 Standards adopted under chapter 13.05 SCC, or block access for vehicles or
15 pedestrians.

16 (c) Such signs shall not be placed on or within the portion of the roadway used
17 for the passage or parking of vehicles or pedestrians.

18 (d) The name, address and telephone number of the persons responsible for sign
19 removal and maintenance shall be made known to the department of public works by
20 the registration of such person or organizations with the Snohomish County auditor and
21 by the portrayal of such information on every sign.

22 (e) If placed within a right-of-way area maintained by the abutting property owner,
23 or organization, permission must be obtained from such owner or organization prior to
24 sign placement.

25 (f) Such signs shall be freestanding, and not attached to any utility structure or
26 pole; traffic sign, device or guardrail; tree or shrub; or any other structure within the
27 right-of-way.

28 (g) The maintenance, removal, and liability due to placement of such signs shall
29 be the sole responsibility of the person(s) or organizations placing them. The county will
30 assume no responsibility nor liability for such signs, and reserves the right to remove,
31 without notice, signs not complying with this section.

32 (7) For litter control or other roadside improvement activities conducted under the
33 department of public works' adopt-a-road program.
