Dear SEPA Reviewer:

Snohomish County Public Works proposes to purchase right-of-way and build a section of the North Creek Regional Trail between State Route 524 and North Creek Park at 183rd Street SE. The proposed 2.8 mile trail would provide a missing link in the planned coordinated regional system that would connect the Sammamish River/Burke-Gilman Trail in King County with the Snohomish County Regional Interurban Trail in Everett.

This letter is to let you know about this project and that an environmental review of the project has been completed. A State Environmental Policy Act (SEPA) Environmental Checklist and Determination of Non-Significance (DNS) have been issued. The DNS states that no significant environmental impacts are anticipated from construction of this project. A Land Disturbing Activity Permit is also required.

Comments on this project must be submitted by August 6, 2012. For more information or to submit comments contact:

Stephanie Cotton, Senior Environmental Planner
