

North Road Project Update

(164th Street SE to Filbert Road)

Snohomish County has been awarded a federal grant to help pay for construction of the improvements along North Road. The road footprint will be widened to accommodate sidewalks, bike lanes, and turn lanes. Right-of-way agents have been working with homeowners to purchase property along the alignment. During 2012, ninety-six of the one hundred and thirty-six agreements were completed.

Become a subscriber to the project web page to receive an e-mail when new information is available. Visit www.snoco.org, and type "current projects" in the search box. From the North Road project web page, follow the e-subscribe link to subscribe.

Utility relocations are likely to begin in the fall of this year (2013) and construction will begin in 2014. Snohomish County PUD will begin the trimming and removal of trees this summer in preparation for their utility relocation work.
