

TNR Appendix A: Major Projects and Their Status

The road projects listed in Appendix A have been identified as major projects in the County's 2015-2035 Transportation Element (TE) or in a previous Transportation Needs Report (TNR). Appendix A-2 shows the current status (active or not active) of these projects and provides notes to help explain their current status. The reasons projects may no longer be active include:

- Completion of project
- Project was not included in 2015-2035 TE
- Annexations

Road improvement projects in the 2015-2035 TE were classified into one of three categories:

1. Widening of an Existing Arterial Road (W-#)
2. New Arterial Road Alignment (N-#)
3. Intersection Improvements (INT-#)

The 2015-2035 TE has a detailed explanation of these categories in Chapter IV, Recommended Transportation Improvements.

TNR Appendix A-2

Major Projects and Their Current Status

This appendix shows all of the major widenings, new alignments, intersections improvements, and whether or not they are still active. The notes help to explain their current status.
