ChipDrop – Free Truck Loads of Arborist Wood Chips (M/D) www.getchipdrop.com The best way to get fresh, natural arborist wood chips is by flagging down your local arborist when they happen to be working on your block. The second best way is to sign up to receive a truckload through ChipDrop. ChipDrop notifies local tree companies working in your area that you would like wood chips or logs. When their truck is full, they can deliver wood chips straight to your driveway, even if you aren't home.		

* All suppliers sell in bulk. Bags of mulch and compost can be purchased from local hardware stores.

** Avoid fine bark mulch, it tends to cause water to run off instead of soak through to the soil below.

*** STA = Seal of Testing Assurance (US Composting Council) www.compostingcouncil.org

Management

Compost and Mulch Calculator

- **Option 1:** Use the following equation to calculate the amount of mulch or compost you need:

$$\text{Yards Needed} = (\text{Square Footage} \div 324) \times \text{Depth in Inches}$$

- **Option 2:** Use the Compost and Mulch Calculator link on www.savingwater.org
