I understand there is a hearing this week on the BSRE Point Wells development plan. As a Richmond Beach resident, I am strongly against this development. Even if a second access road is built, the traffic will be terrible. Two roads, let alone the one current road, cannot handle that many new residents. It will also destroy the neighborhood, which is mostly one or two story single family residences. I do not want 9 story, or taller, highrises on the shoreline, towering over the neighborhood.

For what its worth, I would suggest the county purchase the land, and turn it into a park, with a marina and boat launch, and maybe a couple of restaurants. Even a new Sounder train station.

Please do not approve their plan.

Regards,
Greg Lancaster
