Greetings:

We have lived in Woodway since 1993. Consistent with our prior comments submitted to the County over the past several years, we are strongly opposed to the BSRE development plan which is being presented to the County, yet again, by the developer. We believe this is a bad plan **on so many levels** - our concerns, and the concerns of our local neighbors, have been repeatedly presented to the County, and the County has consistently rejected this development. We ask that you deny the developer's current plan. The size and scope of this plan does not fit in any way with the communities and towns surrounding Point Wells. **Please say no once again.**

Sincerely,

Kevin & Aileen Hutt
