

INTRODUCTION

Annually, the U.S. Department of Housing and Urban Development (HUD) holds a national competition for Continuum of Care (CoC) Program funds. This competition brings funds into Snohomish County to provide housing and services to individuals and families who are experiencing homelessness.

These Scoring Instructions have been developed to measure project performance and capacity using objective scoring criteria, including the HEARTH Performance Measures. Where applicable, based on data from the Homeless Management Information System (HMIS), the impact of the COVID-19 pandemic on project performance has been taken into consideration in the scoring criteria. These Instructions detail how Snohomish County Office of Community and Homeless Services (OCHS) staff and the Project Review Committee (PRC), an independent body, will evaluate projects applications. This method of project evaluation has been reviewed and approved by the CoC Application Oversight Committee (AOC), a committee of the Partnership to End Homelessness (PEH) CoC Board.

Project scores will be used to rank projects that are submitted to HUD in the FY2021 CoC competition. However, in order to best serve our community by providing effective projects and capturing the maximum funds available, projects will be ranked according to HUD’s priorities as established in the FY2021 Notice of Funding Opportunity (NOFO), as well as according to local priorities and need. Projects submitted by victim service providers will be evaluated in a manner that takes into consideration the unique circumstances of victim service providers and the population they serve. Consistent with the FY2021 CoC NOFO, YHDP projects will be submitted non-competitively and are not ranked, but will be required to meet eligibility and threshold criteria.

Snohomish County uses HMIS as the comparable database for victim service providers in compliance with WA state law. Victim service providers must follow applicable restrictions and are prohibited from entering personally identifying information (PII).

OCHS will generate the data needed for scoring through CSV export of enrollment level data from HMIS that is processed via sql server and analyzed by the HMIS Data & Program Analysts. Additionally, OCHS staff will compile information from sources such as fiscal records and applicable communications. The source of the data reviewed is specified for each criteria.

THRESHOLD CRITERIA

Project applications will be reviewed to determine whether they meet eligibility thresholds; projects that do not meet the threshold criteria will not be scored. Applications will be rejected and not considered for review for any of the following reasons: (1) application materials are not received by the deadline, (2) the application is not consistent with the Plan to End Homelessness and the Consolidated Plan, (3) the agency has outstanding County or HUD monitoring, or OIG Audit finding(s) that are overdue or unsatisfactory, (4) the project does not comply with the requirements of the CoC interim rule (24 CFR part 578), including requirements to participate in the Coordinated Entry (CE) System and the Snohomish County HMIS.

THRESHOLD CRITERIA (ALL PROJECTS)
Application materials were received by the deadline.
Project is consistent with the Homeless Prevention and Response System Strategic Plan and the Consolidated Plan.
No outstanding County or HUD monitoring and/or OIG Audit findings where the response is overdue or unsatisfactory.
Project complies with the requirements of the CoC interim rule (24 CFR part 578), including, but not limited to: <ul style="list-style-type: none"> - The project fills (or will fill) all vacancies exclusively from the coordinated entry system. Referrals are made based on local priorities and preferences (which consider length of time homeless, the vulnerabilities of participants and/or severity of service needs) for the project type. - The project participates (or will participate) in the Snohomish County HMIS

EVALUATION METHOD

Project applications will be categorized as one of the following: Standard Renewals, Renewals Operating Less Than One Year, New Expansion Renewal Projects, New Expansion Operating Less Than One Year Projects, or New Projects. All project applications will be evaluated and scored using the criteria in these Instructions; however, the PRC, in ranking projects, will consider the priorities and information contained in the FY2021 NOFO. Projects will be scored according to the **percentage** of points received.

Standard Renewals: Standard Renewals are renewing CoC projects that have operated for a full 12-month period. These projects will be evaluated using project performance data from HMIS and other objective data gathered from HMIS and other sources, such as invoices and monitoring.

Renewals Operating Less Than One Year: Renewals Operating Less Than One Year are renewing projects that have not yet begun operating or have begun operating but have not yet completed a full 12-month period. These projects will be evaluated using the project performance data from HMIS and other sources, such as invoices.

New Expansion Renewal Projects: New Expansion Renewal Projects are projects that are an expansion of an existing eligible renewal project. These projects must increase the number of units in the project, or serve additional persons. These projects will be evaluated using project performance data from HMIS and other objective data gathered from HMIS and other sources, such as invoices and monitoring.

New Expansion Operating Less Than One Year Projects: New Expansion Operating Less Than One Year Projects are projects that are an expansion of an existing eligible renewal projects that have not yet begun operating or have begun operating but have not yet completed a full 12-month period. These projects will be evaluated using the information provided in their FY2020 Local Application (or the FY they were originally funded), project performance data from HMIS and other sources, such as invoices.

New Projects: New Projects are projects that have never been awarded CoC Program funds, this includes an expansion of a non-CoC funded project. These projects will be evaluated and scored using HUD’s scoring criteria, guidance, and priorities from past NOFAs, as well as HMIS data for data timeliness if applicable.

Optional Narrative for projects submitted by victim service provider: Given the unique circumstance of victim service providers and the population they serve, the Optional Narrative provides an agency an opportunity to earn back points in the same category in which the points were lost. If full points were received, additional points (beyond the maximum indicated) will not be awarded if a narrative is provided.
