This sounds like a great idea! I hope you will adopt this ordinance which would provide a structure for owners of commercial properties (agricultural, commercial, and some multi-family residential properties) to obtain low-cost, long-term, financing for energy and resiliency projects for new buildings and retrofits to existing buildings.

Thanks,  
Sally Lider

I support ORDINANCE NO. 21-097 CREATING A COMMERCIAL PROPERTY ASSESSED CLEAN ENERGY AND RESILIENCY (C-PACER) PROGRAM IN SNOHOMISH COUNTY. Please support building owners to make this financial commitment to clean energy. We are running out of time to convert to sustainable energy.

Sincerely,  
Kate Lunceford  
Bothell

I am writing in support of an ordinance creating a commercial property assessed clean energy and resiliency program in Snohomish county.

It will provide a structure for owners of commercial properties and some multi-family residential properties to obtain low-cost, long-term financing for energy and resiliency projects for new buildings and retrofits to existing buildings.

Dear Council,

I want to strongly recommend you review and approve this ordinance. As you know the homeless crisis in Snohomish is at a critical state and we need as much support and assistance we can get! This issue affects both those directly experiencing homelessness, the general population as they pay the costs associated with trying to help the families and individuals suffering, property owners that often have these unfortunate soles unable to find help and so they “live” on their property or the surrounding properties.

Thank you for your consideration,

J
