Snohomish County Road Crews Focusing on Icy Roads Thursday and Friday with Expected Freezing Overnight Temperatures

Online resources include snow removal and priority route maps for plows and deicers

EVERETT, Wash., December 30, 2021 – With daytime snowmelt expected to turn to ice Thursday and Friday nights, Snohomish County Road Maintenance crews will continue 24/7 plowing, salting and sanding operations to keep roads clear. Crews will maintain their focus on primary routes but will put more attention on secondary and tertiary routes as temperatures are expected to rise Saturday.

“Our crews have worked very hard around the clock for nearly a week keeping the county roads plowed and sanded,” Snohomish County Public Works Director Kelly Snyder said. “We are looking forward to the warmer weather later this weekend. We just have to get through a couple more nights of freezing temperatures and icy roads.”

Before heading out today or during a snow or ice event, it is highly recommended that commuters check their travel routes and options. For those venturing through unincorporated Snohomish County, visit the Public Works [Snow and Ice webpage](#) for road closure information and more. The new [snow removal and anti-icing map](#) shows which routes are primary and secondary and allows residents to see what county roads have been recently plowed, sanded or had anti-icing applied.

Public calls requesting service will be addressed where possible after priority routes have been cleared. The prioritization of snow and ice routes is based on traffic volume, transit and school bus routes, terrain, and knowledge of problem areas.

During snow/ice weather events, it’s also important to:

- Know who to call and when:
 - Life-threatening emergencies, call 911.
 - [Non-life threatening emergencies](#): 425-407-3999
- Snohomish County Road closure/plowing: 425-388-7500

- Work requests for road plowing will be recorded and used to prioritize secondary and tertiary routes as time allows.
- Give snowplows and deicer equipment plenty of room to work. Allow for a minimum following distance of 200 feet.
- If you must pass, take extreme caution and beware of the displaced snow and ice, or sand spray.
- Vehicles parked along all major arterials and emergency routes must be moved off the street. Those vehicles left in the travel lane of a roadway and blocking traffic may be towed at the owner's expense. It is recommended for vehicles to be moved when snow is in the forecast. Parking vehicles in the driveway and off the road helps the snowplows finish routes more quickly and efficiently.
- Keep drainage inlets near your home clear of leaves and debris during the winter months to help reduce the chance of flooding.
- Try to keep garbage bins and other obstacles out of the street when the roads are icy or covered with snow.
- Obey road closed signs.
- Be sure to have vehicles mechanically prepared for cold weather. Have tire chains or traction tires readily available.
- Keep food, water and medical supplies in your home that will last at least one week. Pay attention to weather reports and plan ahead for even longer periods of time.
- Follow the Snohomish County Department of Emergency Management and Public Works department on Twitter and like Snohomish County on Facebook for the most up-to-date information during an event.
