

# SLS PURPOSE, VISION, MISSION AND GOALS

Approved by SLS Steering Committee August 12, 2021

## **Purpose:**

Weaving local cultures together and finding ways to sustain and benefit them in a changing future.

## **Vision:**

Healthy and vibrant cultures and ecosystems in our watersheds with economically viable agriculture and fisheries.

## **Mission:**

Setting the table to develop understanding, relationships, and strategies to create and achieve a shared vision and beneficial outcomes for our watersheds.

## **Broad goals:**

An effective sustainable land strategy involves collaboration with partnering organizations, and simultaneously and substantially improves:

- culture rooted in the land, fish, wildlife, and native plants; and
- economic vitality and productivity; and
- healthy and harvestable fish and wildlife; and
- food production and security; and
- resilience to damaging floods and climate change; and
- protection of resource lands.

Note: Revisit after the monitoring project.
